OUR SUSTAINABLE MISSION

CATMA works with members and community partners to plan and manage safe, convenient, and economical transportation & parking options to better coordinate land use, reduce environmental impacts and boost economic vitality.

ABOUT OUR SUMMIT

In 2022, the world was recovering from a pandemic. It had been a couple of years since anyone had met in person. CATMA created a Summit as a place for transportation decision makers, community, and legislators to gather.

Last year, the Summit sold out. In 2025, we look forward to making more connections. We invite you to join us.

The opportunity is yours...

Transportation needs apply to everyone but especially to workforce. Transportation solutions require working together with state and local officials, employers, and commuters.

The CATMA Transportation Summit is the premiere conference where all of the stakeholders get together in Vermont.

BUILD RELATIONSHIPS

Cultivate relationships with attendees from in and around Chittenden County and beyond. Meet decision makers and transportation influencers..

GENERATE LEADS

Attendees come to our Summit to solve transportation problems and think of what's possible. Put yourself in front of our audience.

BENEFIT EMPLOYEES

Sending an employee to the Summit gives them an education about transportation options in Chittenden County.

SOCIAL RESPONSIBILITY

Be part of Vermont's climate action. Learn how to shape transportation so it contributes to climate goals.

Bring everyone to the table

Transportation options are changing. Workforce habits and expectations are changing. Our warming planet requires that everyone pitch in to change our emissions. Let's bring everyone together to find solutions.

GOVERNMENT

We have many attendees and speakers involved at all levels of government from Town Planners to State Senators, State Representatives, and Mayors.

Business leaders join our Summit to share their transportation wins and get answers to their transportation challenges.

COMMUNITY

We make sure community groups focused on transportation have a seat at our table. We invite transportation partners with solutions to offer.

Each year, we host representatives from a wide range of transportation services operating in Northwest Vermont.

CLIMATE

In Vermont, Climate Justice means business.
The Summit showcases activity happening all over the State to combat climate change.

A DAY AT THE SUMMIT

KEYNOTE

GENERAL SESSION

The morning is arranged to give attendees a common context. The afternoon provides breakout sessions on several tracks.

Attendees are provided generous, I5-minute-breaks to network, check emails and maintain their energy.

Food and drink is provided throughout the day.
